## **MAYOR'S MESSAGE**

Jenny Oaks Baker will be performing with the Syracuse Symphony Orchestra on Friday, May 26 in the Syracuse High School Auditorium. Get tickets and information here [www.syracuseutaharts.org/](http://www.syracuseutaharts.org/)

UTA has notified us that they will be increasing the frequency of the buses coming through Syracuse to every 30 minutes on weekdays effective August 15. The bus will also travel to the Frontrunner station in Clearfield. Also, the UTA student summer pass will cost \$75 this summer, instead of the usual \$90. It can be used on the bus, Frontrunner, TRAX, trolley, or streetcar. It will be available at [rideuta.com/summer](http://rideuta.com/summer) on May 1, but must be purchased by June 15.

The 2000 West (SR-108) road construction project from 1700 South to 300 North will take place over a two-year period. This year's roadwork will be in front of the high school to 300 North and the extension of SR-193 to 3000 West. The construction of the road between the Junior High and Syracuse Elementary will take place after school gets out both years. UDOT has the tentative schedule on their website: [udot.utah.gov/sr108](http://udot.utah.gov/sr108).

Please be safe and courteous as the roads are improved in Syracuse.

~Mayor Terry Palmer

## **POLICE DEPARTMENT**

The last week in April was National Volunteer Week. In the April 11th Council meeting, Chief Atkin recognized those who have given give back to their community through service to Syracuse Police Department.

In the Spring of 2013, Syracuse Police Department collaborated with Syracuse Lions Club to build a Volunteers in Police Service (VIPS) program. Most volunteer efforts have been centered on administrating fingerprinting services for the public. Prior to the partnership, officers had to be called in from the field to perform this duty; volunteers have allowed the Department to continue this valuable community service, while keeping officers out patrolling the community. Volunteers have also helped with data entry and other administrative functions within the Department. The Lions Club was active with the Guns and Hoses event in December, where they worked to help raise funds for the Mathis family.

Additionally, in 2016, Syracuse Police Department initiated efforts to start a Neighborhood Watch program in our community. One of the first steps was to recruit an interested and motivated volunteer coordinator for this program.

In 2016 alone, these volunteers donated over 200 hours to the Department. Based on a national estimate of what volunteer time is worth, the service of our volunteers has been a benefit of more than \$4,850.00.

Syracuse Police Department would like to publicly recognize its volunteers: Lions Club members - Lynn John, Sandra John, Steven Anderson, Eric Ellington, Candi Ackerman, Chris O'Shea, and Mike Eisenberg. Neighborhood Watch - Stephanie Cisney.

## **FIRE DEPARTMENT**

In coordination with Public Works and the Water Department, firefighters will be flowing fire hydrants throughout the city this spring and summer beginning in May through October. There are many reasons for this, including ensuring the integrity of the fire hydrant hardware, water mains and documentation of the pressures and gallon-per-minute flows the hydrant can provide.

Residents and business owners can assist in this effort by keeping the area around a fire hydrant on your property clear of tall grass, shrubs or other obstacles for a three-foot radius around the hydrant to ensure visibility and access to the hydrant.

One of the noticeable side effects of these hydrant flows is a temporary discoloration of the water in the immediate area of the flow. When a hydrant is opened, the sediment in the main is stirred which creates murky water. Be assured there is nothing wrong with the water, and it will clear in a short time.

Information about flow testing locations will be available on social media channels and through the fire department at 801-614-9614 or Public Works Department at 801-825-7235. You will see uniformed firefighters flowing and servicing various hydrants throughout the city. If you have any concerns or questions about this activity please contact a City representative at one of the numbers above.

## COMMUNITY NEWS

## PUBLIC WORKS

When considering draining swimming pool water, reduce chlorine in the pool water to undetectable levels (< less than) 0.1 mg/L) before draining it. Consider the following option for removing chlorine: Simply stop adding chlorine to your uncovered pool and wait. Sunlight will help to naturally dissipate the chlorine within 10 days. Or wait at least two weeks. Then you may drain it onto your lawn and let it percolate through the ground. Chlorine water cannot enter into the storm drain system. The storm water goes directly to canals, rivers, or streams and can kill aquatic life if there is too much chlorine. This water is not filtered or treated. Remember, **Only Rain Down The Drain**. Q. What should I do if I experience low secondary water pressure? A. You can begin by checking your filter on your sprinkling system. Once you have cleaned your filter and checked your sprinkling heads for obstruction and find the pressure to be low, please submit a fix-it request or call the Public Works Department at 801-825-7235.

Q. Is the secondary water valve in my park strip mine?

A. The valve just behind the curb is the city's secondary water valve. This is used by the city in the event that you are away and there is a problem in your sprinkling system. You will need to install an additional valve and filter in close proximity to the city valve for you to maintain your system.

## FINANCIAL REPORTING
